

Reading Scholarship Program

READING CAN OPEN MANY DOORS FOR YOUR CHILD!

WellCare of Kentucky wants to foster a love of reading through our Reading Scholarship Program.

Strong reading skills are an important building block in learning. During the elementary years, children move from “learning to read” to “reading to learn.” Children perform better in every school subject when they read well.

Whether your child is just learning to read and struggling with basic skills, or is a strong reader looking to build their skills, our reading program can help them master reading.

Learn to Read!

Through our reading program, your child will learn and strengthen:

Alphabet skills.

Sight reading.

A love of reading.

Phonics.

Comprehension.

“What does the tutoring program look like?”

This program helps children grow their love of books and reading by building stronger literacy skills over the summer.

“How does the program work?”

Your child must be in kindergarten to fifth grade to participate. After the application is processed, you will get a confirmation email with all the details of the class, website, and a phone number for any questions.

“If approved for the program, what will my child be doing?”

Your child will attend class once a week for five weeks. In addition to class time, there will be homework and online modules that will take about two hours per week.

“Is my child’s teacher involved in this program?”

Your child’s teacher will have no involvement other than signing off on the application for the member to take advantage of the program.

“How do I apply for my child to enroll in the program?”
